## TO CHANGE RULES

### National Trotting Association Rules Committee Meets.

### IMPORTANT CHANGES LIKELY

Committee Will Consider Several Important Alterations in the Rules for Benefit of the Racing Interests—Will Create Board of Stewards.

NEW YORK, Feb. 13.—The rules committee of the National Trotting Association was in session here all day yesterday and when it makes its report to the biennial congress tomorrow there will, it is said, be several changes which will be of undoubted advantage to the light harness horse interests. The committee, with the exception of one member, Horace Wilson of Lexington, Ky., is new this year. Among the members is William Russell Allen of St. Louis, chairman; J. H. Thrall of Allentown, Pa.; J. M. Johnson, of Calais, N. C.; W. H. Carter, of Richmond, Va.; John C. Welly of Canton, Ohio, and Colonel Hough of Baltimore.

A new rule which was, it is said, was favorably considered, which the A. A. has sanctioned, was the creation of a board of stewards in circles made up of not less than five tracks and not more than twelve who shall constitute a governing body for the circuit by which they are named, acting jointly for the tracks and the parent association. The stewards will be appointed by the N. T. A. and their decisions shall be binding until the close of racing on the circuit for which they act. The stewards will act as an intermediary between the tracks and board of review, in cases where officials are committed against said tracks. Instead of appealing to the board of review, which may not meet for a long time, owners, drivers, trainers, and others who may be subjected to punishment may appeal to the board of stewards for a ruling. Their decision, however, will not be absolutely binding for the case can still be taken to the board of review and the decision of the stewards may be overruled. The association in the respective circuits will submit names for stewards to the N. T. A. and for those a board of five will be appointed.

Another matter which the rules committee will ask the congress to adopt will be the licensing of starting judges. The work of many of these officials heretofore has been unsatisfactory.

### A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c, in stamps for sample to The Herpicide Co., Detroit, Mich.

Paris is now diverted with the spectacle of an automobile "looping the loop" in the "Circle of Death" at the circus. The result are about the same as when the pedestrian attempted to cut across ahead of the automobile at the corner, except that in Paris it is the chauffeur who pays the penalty and justifies the name applied to the circle he describes.

### MORE COMFORT THAN EVER.

On Sunday, December 17th, the Denver & Rio Grande railroad will inaugurate a daily line of standard and tourist sleeping cars between Denver and Los Angeles in connection with the new Clark road. Both cars will leave Denver daily at 9:30 a. m., and arrive at Salt Lake City at 1:35 p. m., the next day. At this point the cars will be held over until midnight, thus allowing through passengers the privilege of a stop-over of ten hours and a half in Salt Lake City. Eastbound, these cars will leave Los Angeles at 8 p. m., and arrive at Salt Lake City at 6:30 a. m., second morning where they will remain over until 3:50 p. m., thence to Denver where they will arrive at 4:20 the following afternoon. This stop-over at Salt Lake City of the regular line of sleeping cars promises to be an attractive feature for transcontinental travelers.
